Summer 2020

Ensure the Youngest Children Get the Best Start

*Summer 2020 plans now out the window? **Spend it online with us!***

Early educational experiences provide the foundation for future success. We help educators develop the tools necessary to implement high quality programming for children from birth through grade 6 in inclusive and diverse settings.

Why Choose UMSL Education

Convenient 4-week and 8-week courses designed and taught by experienced faculty who are leaders in their fields

Opportunity to work on your own curriculum with supportive instruction for adapting to online formats

Choose UMSL for Flexible Learning

UMSL offers high-quality online instruction thoughtfully developed and taught by expert faculty and supported by professional staff in the Center for Teaching and Learning and the Office of eLearning. UMSL has been ranked first in Missouri in U.S. News & World Report's online bachelors degree program rankings the past three years.

Ready to get started? **Take the next step and contact our graduate education advisors today:**

No additional online course fee for Summer 2020. Visit umsl.edu/cashiers for tuition and other fee rates.

Schedule of Classes

Ech Ed 6415: Organization & Development of Early Childhood Programs

May 18– July 11; 3 credits

Are you interested in learning how to best design and operate an early childhood program in an inclusive and diverse setting? Students will investigate effective strategies for the organization and development of programs for children from birth through 8 years old and will research key concepts in theory and practice related to funding, budgeting, staffing, professional development, and assessment of curriculum and program stability.

EI Ed 6422: Curriculum Design of Elementary Programs

June 15 – August 8; 3 credits

Interested in infusing differentiation, social justice, and technology into your teaching practice? Design innovative curriculum to meet the needs of diverse learners.

EI Ed 6423: Learning Through Inquiry

June 15 – August 8; 3 credits

Looking to strengthen your teaching of diverse learners? Investigate instructional models including inquiry, multimodal projects, digital collaboration, and global learning connecting with classrooms around the world and online.
